

Good practice identified during action A1

---

**Number/code:** OM/SM15

**Title:** LOW-EMITTING PAINTS

**Guidelines section:**

Governance

Operational management

*Context of the event*

*Event*

*Stadium management*

*Procurement*

*Mobility and logistics*

**Description**

The USTA Billie Jean King national tennis center, is an American stadium complex and home of the US Open Grand Slam tennis tournament that works with eco evolutions llc, Green Sport Alliance and more generally with venues and teams in order to expand its sustainability program that involve, among others, some green initiatives related to the application of low-emitting paints and finishes.

**Environmental benefits**

The use of low-emitting paints and finishes allows USTA to reduce the emission of pollutants.

**Economic benefits**

The design of the stadiums allows USTA to reduce the costs related to the usage of more chemical substances.

**Applicability and replicability potential**

The practice applied by USTA is applicable. The replicability is possible but changes according to the state of the building.
